

GWT Basics Home

Introduction

This page provides a collection of GWT tips and tricks which we have stumbled upon in the course of our projects, and could come in handy again.

Modules, source code and issues trackers, GWT in other Clazzes.org projects

When we started moving from GWT to DOJO, some of our GWT tools had not yet grown into separate projects.

Therefore I link them here:

Name	public svn	Jira	Remarks
Main collection of GWT tools	http://svn.clazzes.org/svn/gwt	-	
GWT Config Manager	http://svn.clazzes.org/svn/gwt/trunk/gwt-config-manager/	GWTCONFMAN	
GWT-Extras	http://svn.clazzes.org/svn/gwt/trunk/gwt-extras/ , http://svn.clazzes.org/svn/gwt/trunk/gwt-extras-test/	GWTEXTRAS	
GWT FancyMail Admin	http://svn.clazzes.org/svn/fancymail/trunk/gwt-fancymail-admin/	GWTFMADM	Part of FancyMail project
GWT Security helpers	http://svn.clazzes.org/svn/gwt/trunk/gwt-sec/	GWTSSEC	Includes GWT implementations of http-util HttpLoginService
GWT as target for Sketch drawing	http://svn.clazzes.org/svn/sketch/trunk/gwt	GWTSKETCH	Part of Sketch project
