

Eclipse-Hints added to KnowHow space

Overview

After some more Eclipse frustration and after finding out they dropped numerical versions from downloadable files' names (see our [according Tweet](#)), I started [Eclipse Hints](#).

Besides a list of [Eclipse Version Codenames](#) I also started to document our [Favourite Eclipse Plugin Sites](#).

Special Hints

GTK confusion in Eclipse 4.4

See [Running Eclipse 4.4 Luna under debian wheezy](#).
