

JPKG Java Packages Home

Introduction

JPkg is our taste of (re)packaging Java Software for Debian to allow easy installation and updates over our debian archives (deb.clazzes.org), sometimes accompanied by additional helpful addons like init scripts.

Packages

Software	Debian package names in jpkg repository
Apache Tomcat 6.0.36	jpkg-tomcat6, jpkg-tomcat6-addons
Apache Tomcat 7.0.37	jpkg-tomcat7, jpkg-tomcat7-addons
Apache Maven 3.0.4	apache-maven
