

OOOEngine

OOOEngine provides Java tools to manipulate ODF documents by remotely controlling an OpenOffice or LibreOffice instance, usually maintained by [LibO-Server](#).

OOOEngine is available as legacy library jar and as OSGi bundle, both from our Maven Server, at: <http://maven.clazzes.org/org/clazzes/oooengine/> (see below for pom.xml).

Repositories:

Subversion: <https://svn.clazzes.org/svn/oooengine/trunk/oooengine/>.

pom.xml snippet:

```
<repository>
  <id>clazzes.org</id>
  <url>http://maven.clazzes.org/</url>
</repository>

...

<dependency>
  <groupId>org.clazzes.oooengine</groupId>
  <artifactId>oooengine</artifactId>
  <version>1.0.0</version>
</dependency>
```
